

Persona Engineering™ Capability Maturity Matrix

Color Legend

Green = Demonstrated

Yellow = Prototype Evidence

Red = Emerging Research

Purple = Visionary Research

Capability	Maturity Level	Business Impact
Governance Layer Above the LLM	Demonstrated	Behavioral control without retraining
Persona Persistence	Demonstrated	Continuity and predictable user experiences
Behavioral Standardization	Demonstrated	Reliability and organizational consistency
Separation of Concerns	Demonstrated	Maintenance and platform migration
Externalized Governance	Demonstrated	Transparency and auditability
Token Optimization	Demonstrated	Potential reduction in operational costs
Organizational Knowledge Encapsulation	Prototype Evidence	Preserves institutional knowledge
Longitudinal Assessment	Prototype Evidence	Governance and quality assurance
Persona Evolution	Prototype Evidence	Continuous behavioral improvement
Ledger-Based Explainability	Prototype Evidence	Auditing and compliance
Multi-Persona Ecosystems	Prototype Evidence	Scalable AI deployments
Governance-Assisted Memory Management	Prototype Evidence	Continuity and learning
Prompt Injection Mitigation	Emerging Research	Potential AI security improvements
Corporate Policy Enforcement	Emerging Research	Compliance support
Corporate Ethos Preservation	Emerging Research	Organizational identity preservation
Cross-Model Persona Portability	Emerging Research	Reduced vendor lock-in
Behavioral Version Control	Emerging Research	Software-style AI governance
Population-Level Persona Analytics	Emerging Research	Enterprise optimization
Autonomous Governance Agents	Emerging Research	Reduced governance overhead
Synthetic Cognition Framework	Visionary Research	Next-generation AI operating environment
